**Always Open® Impulse Merchandiser Wall of Color Floral Cooler**

The Wall of Color is an industry first, in tall, open refrigerated floral cases, featuring Floratech’s patented boundary layer airflow. This technology slowly circulates conditioned air over the flowers and under the vases, extending floral shelf life and increasing your sales. The cooler has a large floral capacity with a unique shelving system to optimize floral merchandising. Optional, self-stow shelving quickly converts the case from bouquets to arrangements.

### Standard Features

#### Merchandising Flexibility

- Always Open® design promotes impulse buying
- Curved tempered glass side enhance product visibility
- Can be combined with other sizes and shapes to form endless floral cooler configurations
- Adjustable rack and bracket positions
- Unique shape makes it easy to add or remove bouquets while keeping the cooler looking full at all times
- Mounted on four lockable casters for easy relocation
- Black gloss exterior, textured black interior
- Power cord provided for safe and easy installation

#### Performance

- Angled return air grille prevents debris from entering the cooling system
- Oversized evaporator coil minimizes moisture removal, keeping relative humidity high and flower petals fresh
- Front door evaporator access for easy maintenance
- Top condenser air discharge eliminates hot air blowing on customers/flowers
- Automatic “on demand” defrost cycle
- Automatic condensate removal so no drains are required
- Ozone-friendly 404a refrigerant
- Corrosion-free laminated walls and powder-coated aluminum components for durability
- Eligible for LEED credits
- 1-year standard compressor warranty

### Options

- Self-storing shelves quickly convert for arrangements
- Long-stemmed flower vases or grower buckets
- Wide range of color and finishes to match store décor
- Matching dry sections for additional merchandising
- Signage channels for pricing and other messages
- Patented boundary layer airflow technology cools vases and envelops flowers keeping them fresher longer
- Bumpers protect against shopping carts
- Remote refrigeration system
- Variety of refrigerants
- 50 Hz models available (CE certified)
- 4-year supplemental compressor warranty
**Floratech’s** patented boundary layer airflow keeps cold, humidified air circulating properly over and under the flowers, extending their shelf life, without the barrier of door that inhibit sales. **The Wall of Color** can be used to maintain conditions suitable for both traditional and tropical flowers.

**Specifications – Self-contained Operation**
